The Convertible Free Motion Quilting Foot set supplied with this model includes a closed-toe foot, open-toe foot and clear view foot, allowing you to take your quilting creativity to the next level.

Workspace

You get 11"+ (280mm) of room to the right of the needle, enough to fit a large quilt while you do free motion stitching. And if you want to go really big, the MC8900QCP Special Edition is designed to work on a quilt frame. It even has an optional remote thread cutter.

One-step needle plate conversion

You don't need a screwdriver to change the needle plate from standard to straight stitch. Now the needle plate just pops off with the push of a lever for a quick needle plate switch.

AcuFeed Flex™ Fabric Feeding System*

The quiet power of this machine really shows itself when it comes time to sew multiple layers. Engage the exclusive AcuFeed Flex™ fabric feeding system and feel your project moving together under the needle with perfect precision.

*Twin foot standard. Single foot optional.

9mm stitch width

The MC8900QCP Special Edition comes with 270 stitches, with 6 Direct Select buttons to high-use stitches. Choose from Utility, Appliqué, Heirloom, Quilting, Pictograph, and more. Quilters will love the new Serpentine stitch, which can adjust to 9mm in width, 5mm in length.
